

383

384 **Figure 4:** Relative abundance of GNRHR, FSHR, LHR, BCL-2, BAX, and FOXO1 mRNA in the ovaries
 385 of female rabbits exposed to different monochromatic light colours. (a, b) different letters on bars denote
 386 a difference ($P < 0.05$). No marked letter above the bar indicates that the difference is not significant.
